■ **Bluetooth® audio**

The Bluetooth® audio system enables you to enjoy music played on a portable digital audio player (portable player) from the vehicle speakers via wireless communication.

This audio system supports Bluetooth®, a wireless data system capable of playing portable audio music without cables. If your portable player does not support Bluetooth®, the Bluetooth® audio system will not function.

■ **Bluetooth® phone (hands-free phone system)**

This system supports Bluetooth®, which allows you to make or receive calls without using cables to connect a cellular phone and the system, and without operating the cellular phone.

■**Conditions affecting operation**

The Bluetooth® audio/phone may not operate normally in the following situations:

● The portable player does not support Bluetooth®

● The cellular phone is located outside the service area

● The Bluetooth® device is switched off

● The Bluetooth® device has a low battery

● The Bluetooth® device is not connected to the system

● The Bluetooth® device is behind the seat or in the glove box or console box, or metal material covers or touches the device
